

PRODUCT NAME:

CLIMAX CONNECTOR GATE OPEN 16 CM

PRODUCT CODE/S:

CLX2011

OVERVIEW:

The Climax Connector Gate Open 16 cm (CLX2011) is a compact and durable connector designed to provide secure linkage between a harness, lanyard, or anchorage point. Its gate mechanism allows quick and reliable attachment while ensuring safety during use. Ideal for tasks requiring dependable connections within confined or standard workspace conditions, such as scaffolding, roofing, or maintenance.

DETAILS:
Key Features:

- 16 cm length for compact and easy handling
- Gate opening design for fast and secure attachment
- High-strength construction for fall-protection use
- Compatible with harnesses and safety lanyards
- Suitable for construction, industrial, and maintenance work

How to Use:

- Inspect the connector gate for damage or malfunction before use.
- Open the gate and attach it to a suitable anchorage point or harness.
- Ensure the gate is fully closed and locked.
- Use only in combination with certified fall-arrest equipment.
- After use, clean, inspect, and store in a dry area.
