

PRODUCT NAME:

MASCOT ORIGINAL KNEE PADS

PRODUCT CODE/S:

CL8250

OVERVIEW:

The CL8250 Mascot Original Knee Pads are designed to offer superior protection and comfort for professionals who work frequently in kneeling positions. These knee pads are made from high-quality, impact-absorbing materials that reduce pressure and strain on the knees during prolonged use. Whether used in construction, flooring, tiling, carpentry, or maintenance tasks, they provide reliable cushioning while maintaining mobility and durability.

They are lightweight, flexible, and fit easily into knee pad pockets of compatible work trousers. Made to withstand heavy-duty use, they ensure long-term protection without compromising on comfort or movement.

DETAILS:

Key Features:

Ergonomic design – Fits naturally to the knee shape for comfortable use during movement and kneeling

Impact-absorbing foam – Reduces strain and protects against hard surfaces

Durable construction – Made to endure daily wear in industrial and construction environments

Flexible & lightweight – Allows free movement without discomfort

Compatible with Mascot work trousers – Slides into designated knee pad pockets for secure placement

Ideal for tradespeople – Suitable for flooring, tiling, carpentry, plumbing, electrical work, and more

How to Use:

Insert into work trousers – Slide the knee pads into the knee pad pockets of compatible Mascot or similar work trousers.

Adjust positioning – Ensure the pads are positioned over the knees while standing; they will shift into correct place when kneeling.

Wear during work – Use while kneeling, crawling, or working on hard surfaces to minimise pressure and discomfort.

After use – Remove the pads if necessary and inspect for damage. Replace if foam becomes compressed or cracked.

Cleaning & Storage – Wipe with a damp cloth if dirty; store in a dry place away from excessive heat or chemicals.
