

PRODUCT NAME:

50MM X 50M BLACK CLOTH DUCT TAPE (PRO-SOL)

PRODUCT CODE/S:

AT28BPS

OVERVIEW:

The AT28BPS Black Cloth Duct Tape (50mm x 50m) is a durable, multi-purpose adhesive tape designed for professional and industrial applications. It features a strong cloth backing for excellent tensile strength and a high-tack adhesive that bonds securely to a wide range of surfaces such as metal, plastic, fabric, concrete, and wood.

Engineered to perform in demanding environments, this duct tape is resistant to moisture, tearing, and abrasion, making it suitable for repairs, bundling cables, sealing ducts, temporary fixes, construction work, and general maintenance. The matte black finish also allows for discreet use in staging, events, electrical work, and automotive applications.

DETAILS:

Key Features:

Strong cloth backing – Provides durability and high tensile strength

Powerful adhesive – Bonds well to rough, smooth, and uneven surfaces

Moisture & abrasion resistant – Reliable in indoor and outdoor environments

Easy to tear by hand – No tools required for application

Multi-purpose use – Suitable for sealing, repairing, bundling, insulation, construction, events, and more

Matte black finish – Ideal for low-visibility applications (stage, theatre, cabling)

How to Use:

Prepare the surface – Ensure the area is clean, dry, and free from oil, dust, or loose debris for best adhesion.

Cut or tear the tape – Measure and tear/cut the required length. This tape can be easily torn by hand.

Apply firmly – Press the tape onto the surface, smoothing it out to remove air gaps and ensure maximum contact.

For stronger hold – Wrap or press additional layers if extra strength or sealing is needed.

After use – Store the roll in a cool, dry place away from direct sunlight or extreme temperatures to extend its lifespan. Ensure the harness is snug but allows full freedom of movement. Avoid twisting of straps or webbing.

After each use, hang the harness in a cool, dry place away from direct sunlight and chemicals. Log inspection and service as required by standard (e.g., EN 365).
