

PRODUCT NAME:

FOAM APPLICATOR 50CM SPOUT GUN PROFESIONAL

PRODUCT CODE/S:

MG029

OVERVIEW:

The MG029 Foam Applicator 50cm Spout Gun is a durable, precision-engineered tool ideal for professional builders, installers, and DIY enthusiasts. Its 50cm extended nozzle provides exceptional reach, allowing users to apply PU foam accurately in deep cavities, window frames, roofing joints, or insulation gaps. Constructed with a robust metal body and ergonomic trigger, it ensures comfort during prolonged use and excellent control over foam output. Designed for use with standard pressurized PU foam cans, this gun delivers consistent, clean application — minimizing waste and mess on-site.

DETAILS:
Key Features:

Extended 50cm Spout – Ideal for reaching deep or narrow spaces.
 Professional-Grade Construction – Metal body ensures durability and long service life.
 Precision Control Trigger – Smooth, adjustable foam flow for clean application.
 Ergonomic Handle – Designed for comfort and reduced hand fatigue.
 Compatible with Most PU Foam Cans – Universal threaded design fits standard cans.
 Easy Maintenance – Can be cleaned using PU foam cleaner for long-term performance.
 Leak-Resistant Design – Minimizes waste and ensures accurate sealing.

How to Use:

Shake the foam can well before attaching.
 Screw the can onto the gun firmly (do not overtighten).
 Adjust the flow control knob to regulate foam output.
 Press the trigger to apply foam evenly into the target area.
 After use, clean the gun immediately with PU foam cleaner to prevent clogging.
 Store upright with the foam can still attached if you plan to reuse soon.
