

EC Declaration of Performance

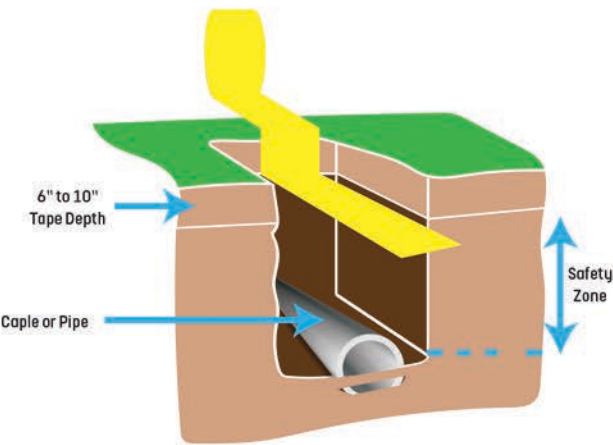

4TH APRIL 2025

GROUP: Standard Warning Tapes

CODE: WT

CATEGORY: Warning Tapes

ABC Abrasives (Safeline Warning Tape) products within this range are manufactured in compliance with EN 12613:2021 and conform to the applicable performance and durability requirements of the standard for underground warning and marking systems.

Underground warning tape is normally installed a specified distance directly above the service line so that any future excavators will be aware of the cable or pipeline further below.
