

GLASS PROTECTIVE FILM

TECHNICAL DATA SHEET

Last Revision: April 28, 2026

APPLICATION AND DESCRIPTION

Adhesive film for windows is one of the easiest, and most durable options. This easy to apply film can be adhered to most glass surfaces including windows, glass doors and shower doors. It protects against scratches, stains and harmful UV rays. Added bonus, this film will not leave any sticky residue if removed within 30 days (depending on your film type)!

PRODUCT SPECIFICATIONS

Specifications	Item
Construction	Consists of low density polyethylene film with an acrylic based pressure sensitive adhesive on one side
Colour	Blue
Sizes	PGP25: 30M X 60CM PGP100: 100M X 60CM
Adhesion	Low-adhesion for smooth surface 0.29 N/25mm
Application Conditions	Perform a compatibility test on a small, hidden area before applying the product fully. Make sure the surface is clean, free from dust, moisture, and grease before application.
Resistance	Against Moisture: Good, Against Oil: Moderate, Against Solvents: Moderate, UV - Resistance: Indoor application only
