

PRODUCT NAME:

INDUSTRIAL 2 KW CERAMIC FAN HEATER

PRODUCT CODE/S:

HEATER2001

KEY FEATURES:

THE INDUSTRIAL 2 KW CERAMIC FAN HEATER IS DESIGNED FOR ROBUST HEATING IN INDUSTRIAL ENVIRONMENTS. EQUIPPED WITH ADVANCED CERAMIC HEATING ELEMENTS, IT OFFERS FAST, ENERGY-EFFICIENT HEAT WHILE MAINTAINING SAFETY AND DURABILITY STANDARDS. IDEAL FOR WORKSHOPS, WAREHOUSES, GARAGES, AND CONSTRUCTION SITES.

- **POWER OUTPUT:** 2 kW (2000 WATTS), PROVIDING STRONG HEAT OUTPUT SUITABLE FOR MEDIUM TO LARGE INDUSTRIAL SPACES.
- **CERAMIC HEATING ELEMENT:** DELIVERS SAFE AND EFFICIENT HEATING. CERAMIC HEATERS ARE KNOWN FOR THEIR QUICK HEAT-UP TIMES AND THE ABILITY TO RETAIN HEAT LONGER THAN TRADITIONAL METAL ELEMENTS.
- **FAN-DRIVEN HEATING:** THE INTEGRATED FAN ACCELERATES WARM AIR CIRCULATION, ENSURING QUICK HEATING OF THE ENTIRE SPACE.
- **ADJUSTABLE THERMOSTAT:** CUSTOMIZABLE TEMPERATURE SETTINGS ALLOW FOR PRECISE CONTROL OVER THE HEAT OUTPUT TO SUIT DIFFERENT NEEDS.
- **PORTABILITY:** COMPACT AND LIGHTWEIGHT DESIGN WITH A BUILT-IN CARRYING HANDLE FOR EASY MOBILITY.

DETAILS:

TECHNICAL SPECS:

Power Output	2 kW (2000 Watts)
Voltage	220-240V / 50Hz
Heating Element	Ceramic
Fan	Integrated high-efficiency fan
Thermostat	Adjustable

Application:

- Industrial workshops and garages
- Warehouses and construction sites
- Cold storage areas
- Factories and production areas
- Large offices or workspaces

Safety Information:

1. Place the heater on a flat surface.
2. Plug into a suitable power outlet (220-240V)
3. Adjust the thermostat to the desired temperature.
4. Ensure the unit is not covered or obstructed while in operation.
5. Regularly inspect the heater for dust accumulation, and clean as necessary.
