

**PRODUCT NAME:**

PVC PIPE CUTTER AMTECH

PRODUCT CODE/S:

TLC0230

KEY FEATURES:

Die cast aluminium body with ratchet action hardened steel blade
Cutting capacity: 10mm – 42mm
Suitable for cutting reinforced 10, 15, 22 & 28mm PE-X barrier pipes to BS7291-3 and other thick walled plastic pipes only (not overflow pipe)

DETAILS:

The PVC Pipe Cutter Amtech TLC0230 is a high-quality, ergonomic tool designed for clean, precise cuts on PVC pipes and other plastic piping. Featuring sharp, hardened steel blades, it ensures smooth and effortless cutting, even on thicker pipes. The comfortable, non-slip handles provide excellent grip, making the cutter easy to control for accurate results. Ideal for plumbers, contractors, and DIY enthusiasts, the Amtech PVC Pipe Cutter is perfect for use in plumbing, irrigation, and general pipework tasks. Its compact design and robust construction ensure long-lasting performance and reliable cutting every time.
